MASTER METER RATE CHART
Effective January 15, 2023

METER SIZE	EQUIVALENT SERVICE UNITS	MINIMUM CHARGE (GALLONS INCLUDED)	MEMBERSHIP FEE
5/8" METER	1.0	\$ 45.54 (1,000)	\$ 465.00
1" MASTER METER	2.5	\$113.85 (3,000)	\$ 1,300.00
2"	8.0	\$364.32 (8,000)	\$ 4,160.00

In order to prevent master metering customers from running up a high water bill and then moving away without paying, Rural Development has required FBWSC to collect a membership fee equal to the total number of service units times (x) 12 month minimum charges.

In order to prevent undue strain on the system, it is recommended that any master metering be evaluated by an engineer before installation.

All master meters will be considered non-standard service and shall meet the requirements of such service as described in the Fort Belknap Water Supply Corporation Tariff.
